INTRODUCTION | 自我介紹

Having gone through extremely rigorous academic experiences, I understand what it takes for students to reach their academic goals. I love helping students find confidence by seeing their abilities grow. As an instructor, I see incredible potential in every person I work with, and always have a variety of tools and approaches ready to find a way for each person reach beyond what they thought was possible. Being someone with many different interests, having engaged seriously with topics ranging from microbiology to music to internet culture to psychology, I find it easy to find a point of connection with every student I meet.

我現在的目標是把我自己的教育經驗幫忙學生得到他們的目標。在我看來, 每個人都有自己的權力 我能幫忙他們發展自己的能力自心就是理想的結果。因為我有很多興趣不少經驗在很多不同方面, 我覺得我能理解很多種人。
